

WHY WORK FOR SYNERGIS?

AS A CONSULTANT

Synergis

We focus on placing candidates in IT & Creative roles, enabling us to specialize in those areas.

To us, this business is all about people, relationships and placing candidates in roles so everyone is happy. We only send clients the best talent -- as they've come to expect from us.

Synergis has won the Best of Staffing Client and Talent Awards for providing superior service to clients and consultants for the last 8 years!

18% of our consultants convert from contract to permanent roles.

The other guys

Many large staffing firms recruit for several different roles and have a generalized approach.

The goal is to fill roles as quickly as possible, even if you aren't the right fit for the role. It's all a numbers and volume game at other staffing firms.

Less than 2% of all staffing agencies in the U.S. and Canada earn this award, which is based solely on client and talent surveys.

A median of 10% of professional contract jobs, industry wide, convert to permanent.
